37	COLG	Food & Personal Care	1,158.90	57.00	5.00	10

\* Banks' current dividend yield is appealing, but the declining interest rate could impact future yields.

\*\* IPPs' current dividend yield is attractive, but the potential revision of PPAs poses a risk to future yields. HUBC may also reduce dividends in the next 1-2 years due to CAPEX for its EV plant.

\*\*\* MARI's DPS is calculated based on pre-bonus number of shares
