## 9MFY20 Result Review: BUY Stance Maintained

Equity Research | Engineering | Thursday, 30 April, 2020

MUGHAL has announced its 3QFY20 result where it posted profit after tax of Rs400mn (EPS: Rs1.59) in 9MFY20 as compared to profit after tax of Rs11bn (EPS: Rs4.27) in same period last year, down by 62.8% YoY.

The company has posted the revenue of Rs21.3bn against Rs20.9bn in SPLY, recording a growth of 1.7% YoY. We note that this growth is attributed to the increase in the prices of steel products during the period.

Gross margin has been squeezed to 9.3% in 9MFY20 as compared to 11.6% in 9MFY19 due to rupee devaluation and increased raw material costs. SG&A expenses went down by 0.1% YoY to Rs414mn in 9MFY20 as compared to Rs433mn during SPLY.

Despite the increase in other income by 105.2% YoY, the bottom line was depressed by the increase in finance cost to Rs1.3bn in 9MFY20 as compared to Rs585mn in SPLY. Furthermore, a tax credit of Rs47mn in 3QFY20 also supported the bottomline.

Going forward, we expect the sales to remain sluggish during the fourth quarter owing to the COVID-19 crisis. However, the bottom line will get improved due to recent policy rate cuts by the SBP. Furthermore, the offtake is expected to improve from the next fiscal year. MUGHAL is currently trading at FY20E PE of 28.7x. Furthermore, the script is trading at a FY20E P/B of 1.4x which offers a discount of 30% relative to its historical 5-year average of 2x. We maintain our **BUY** stance on the script with a DCF based Jun-21 TP of Rs 55 which provides an upside potential of 29.6%.

### VALUATION METHODOLOGY

To arrive at our Target Price, Abbasi & Company (Private) Limited uses different valuation methods which include:

- I. Discounted Cash Flow Model
- II. Dividend Discount Model
- III. Relative Valuation Model
- IV. Sum of Parts Valuation

### RATINGS CRITERIA

Abbasi & Company (Private) Limited employs a three-tier ratings system to rate a stock and sector, as mentioned below, which is based upon the level of expected return for a specific stock and outlook of sector. The rating is based on the following with stated time horizon

Stock Rating	Expected Total Return
BUY	Greater than 15%
HOLD	Between -5% to 15%
SELL	Less than and equal to -5%

Sector Rating	Sector Outlook
Overweight	Positive
Market Weight	Neutral
Underweight	Negative

Ratings are updated to account for any development impacting the economy/sector/company, changes in analysts' assumptions or a combination of these factors.

### RESEARCH DISSEMINATION POLICY

Abbasi & Company (Private) Limited endeavors to make all reasonable efforts to disseminate research to all eligible clients in a timely manner through either physical or electronic distribution such as email, fax mail etc. Nevertheless, all clients may not receive the material at the same time

### OTHER DISCLOSURES

The research analyst is primarily involved in the preparation of this report, certifies that:

- I. The views expressed in this report accurately reflect his/her personal views about the subject company/stock /sector and economy
- II. No part of his/her compensation was, is or will be directly or indirectly related to the specific recommendations or views expressed in this report

The Research Analyst is not and was not involved in issuing of a research report on any of the subject company's associated companies
