Market Outlook

KSE-100 on Monday again kept on struggling around its previous close throughout the day and concluded the session with a minor change compared to the last close. The benchmark KSE-100 index made an intra-day high and low at 43,556 (323 points) and 42,972 (-261 points) respectively while closed at 43,281 by gaining 48 points. Trading volume has been decreased to 74mn shares as compared to 139mn shares on the previous day. Going forward, we expect the market to remain volatile amid uncertainty regarding macroeconomic conditions. The support for the index resides at 42,800. Breaking this level could further drag the index towards 42,000. However, the resistance for the index resides at 43,800.
